

# All Seal

The ALL Seal is a 'pull-tight' security seal that combines durability with ease-of-use. A patented removal feature means no tools or cutters are required for its removal. Made out of high density polyethylene and Acetal (HDP), the All Seal is able to withstand great variances in temperature.

## Applications

Inflight Service	Hospital
Equipment Pharmacy	Equipment EMS
Boxes Cabinets	Equipment

## Features

Heavy-duty, all plastic, one-piece construction.  
 Patented, tamper-resistant, nylon locking mechanism.  
 Patented removal system.  
 Thin sealing strap designed to fit most locking rings and equipment latches.

## Materials

High Density Polyethylene and Acetal.

## Strength Characteristics

Average Looped pull apart force:  
 Without Tearline is 51Kg (112lbs)  
 With Tearline is 23Kg (50lbs)

## Dimensions

The 203mm (8") seal has an active length of 127mm (5")  
 The 254mm (10") seal has an active length of 184mm (7.25")  
 active length

## Marking/print

Heat stamped serial number (7 digits)  
 Print area: 25x14mm (1"x9/16")  
 Barcoding available on extended flag version

## Stock Colours

Blue, Red, Yellow

## Packaging

10 per strip, 1,000 per carton  
 Gross Weight:  
 8" version: 280x280x430mm 2.4Kg
